

# SAMSUNG A711

## Features

### Lightning Fast Connection Speeds

The Samsung A711 now delivers faster high speed data rates – up to 3.6Mbps, that's up to 10 times faster than 3G. This means lightning fast internet connection at broadband speed, the ability to open large email attachments with ease and download your favourite music from BigPond Music in seconds. With the Samsung A711, the world is yours - without the wait.

### Reliable Design

The Samsung A711 follows in the design footsteps of the Samsung A701, one of the most trusted and popular Next G phones. All the speed and functionality of the Samsung A711 has been cleverly contained in a slim yet sturdy folder design. When closed, it looks and acts like a dedicated music player, featuring illuminated touch sensitive control keys. When flipped open, the large 2.3" crystal clear screen is revealed along with the rest of the phone's powerful features. Available in black or red.

### A Multimedia Powerhouse

The Samsung A711 was made to deliver multimedia magic. The huge 2.3" QVGA screen is ideal for watching your favourite FOXTEL by Mobile channels in widescreen view while the 2 megapixel camera captures brilliant images and records up to 60 minutes VHS quality video\*. The lightning fast HSDPA connection lets you make video calls to family and friends with even greater clarity while the versatile music player allows you to listen to your personal music library anytime, anywhere. And using the MicroSD slot you can expand your memory up to 2GB so you'll always have plenty of room for all your multimedia files.

### 2 Megapixel Camera

### 60min VHS Quality Video\*

### Living World

\*Up to 60min recording dependents on resolution & shared memory. Telstra™ is trade mark of Telstra Corporation Limited © Registered trade mark of Telstra Corporation Limited ABN 33 051 775 556. Note: Actual screen images and resolution may differ from the images shown in this brochure.

## Specifications
