- Revolutionary gaming experience
- Brilliant 4" multi-touch Reality Display

### Unique Selling Points

- **Cutting Edge Smartphone:** – The Sony Ericsson Xperia™ PLAY is a powerful smartphone, running the latest Android™ OS (2.3) for smartphones. Featuring a 4.0" FWVGA multi-touch LCD Reality display and a powerful email, web browsing and turn-by-turn navigation experience it's built to perform as a smartphone. Plus, with integrated social networking with Timescape™, stereo speakers, media pane and 5.1MP Auto Focus capture it's more than just a phone for gamers.
- **The very first PlayStation™ certified device:** - Xperia™ PLAY delivers incredible graphics, great sound and exciting out of the box PlayStation™ games. Download PlayStation™ games from world-class publishers on Android Market™, along with games from GAMELOFT (Asphalt 6, Assassins Creed), EA GAMES (FIFA 10), NAMCO (Pacman). Charges will apply.
- **Slide out PlayStation controls:-** A true gaming controller with dedicated PlayStation gaming keys, including two analog touch inputs and all the buttons you see on a PSP you're hands will find the phone familiar.
- **Power to the gamer:-** Powered by Scorpion 1 GHz CPU and a powerful graphical processor, Xperia™ PLAY is optimised for advanced gaming featuring a vibrant display with silky smooth 60frames per second play play-back.
